

1. Replace defective request-to-exit motion on front lobby entrance door with new request-to-exit device.
2. Install additional wire for all devices at the front lobby entrance door for possible relocation at a later date. Additional wire may be coiled and stored above the ceiling in the lobby area.
3. Vendor will remove existing request-to-exit buttons on front lobby entrance door and rear entrance door and replace with blank cover plate
4. All wire inside of walls connected to existing devices being replaced as a part of this project must be removed up to the ceiling. Wire should be cut above the ceiling and disposed of properly.
5. Replace any existing maglocks on access controlled doors identified in this proposal with electric door strikes.
6. Vendor will install a UL rated 24 VAC 16 channel power supply for cctv system. The power supply shall be an Altronix ALTV2416-ULX or its equivalent.
7. The DVR shall be a 16 channel DVR with 1TB of storage and rack-mountable.
8. DVR may use MPEG-4 or H.264 video compression format.
9. HID reader on front lobby entrance door is to be moved and installed at access door for help desk room.
10. Aiphone door station for front lobby entrance shall have an integrated HID reader and access control keypad. Door station model shall be JF-DVF-HID or equivalent. Keypad reader shall be AC-10S which integrates with the door station to make one unit.
11. Aiphone master station shall be JF-2MED or equivalent. Aiphone sub-station shall be JF-2HD or equivalent
12. Vendor is to provide 8 hours of training for all installed systems as a part of this proposal.
13. Vendor will include 1 year of Technical support on access control & cctv systems installed. Technical support may be online, telephone or live.
14. Vendor shall include 3 years of monitoring of the BA system by a UL rated central monitoring station as a part of its proposal.
15. Installation price shall be all inclusive including labor, wire, demo, training and monitoring.
16. An additional camera is to be added and should have the same specifications as the three Sony cameras currently in the bid.
17. An additional HID reader will be needed and installed on new door due to remodel of Hopper St. lobby.
